Tel: +971502928077

LinkedIn: <https://www.linkedin.com/in/omnia92/>

SUMMARY

Cloud Support Specialist with 7 years of experience in supporting Azure and on-premises environments. Skilled in troubleshooting, identity management, and service operations using tools like ServiceNow. Recently worked on AI projects involving object detection, recommendation systems, and sentiment analysis using YOLOv8 and Google Colab. Certified in Microsoft Azure and Microsoft 365.

SKILLS

Cloud & Technical Skills

- Cloud Platforms: Microsoft Azure, Microsoft 365, AWS
- Administration: Windows Server, Active Directory, Office 365 Administration
- AI & ML: YOLOv8, Google Colab, Kaggle, Data Cleaning, Training, Evaluation, Insights Extraction.
- Networking: Internet Protocol Suite (TCP/IP), DHCP, Cisco Routing & Switching
- Virtualization: VMware, Virtual Machines
- Tools & Systems: ITSM Remedy, Easy Vista, GitHub, Linux, MAC & Windows OS

Soft Skills

- Strong communication and negotiation abilities
- Analytical thinking and exceptional problem-solving
- Multitasking and collaboration under challenging conditions.

PROFESSIONAL EXPERIENCE

Cloud Operations Support Core42 Abu Dhabi

Dec 2023 – Present,

- Managed and maintained enterprise-grade cloud infrastructure on G42 Cloud, ensuring 99.9% availability and adherence to strict operational SLAs.
- Monitored cloud resources and system health using advanced monitoring tools to proactively detect bottlenecks and resolve potential incidents before impacting production.
- Resolved high-priority incidents and service requests as a key member of the Cloud Operations Support team, minimising downtime through rapid triage and root-cause analysis (RCA).
- Automated routine operational tasks and system maintenance using Bash scripting to improve team efficiency and reduce manual errors.
- Collaborated with DevOps and Engineering teams to support smooth application deployments, infrastructure updates, and secure configuration management.
- Drafted and updated technical documentation, including Standard Operating Procedures (SOPs) and knowledge-based articles, to streamline onboarding and shift handovers.

AI Engineer Internship

Ideas & Concept

Jan 2025 – Present, Remote

- Sourced and evaluated suitable datasets from platforms like Kaggle to support projects in object detection, recommendation systems, and sentiment analysis.
- Performed data cleaning and preprocessing to ensure high-quality data for training.
- Built and fine-tuned a sentiment analysis model to classify user opinions using natural language processing techniques.
- Used YOLOv8 for object detection tasks and developed recommendation models based on user behaviour and content similarity.
- Utilized Google Colab for model development, training, and experimentation.
- Generated actionable insights from model outputs to support decision-making.

IT Support Engineer

UN WORLD FOOD PROGRAMME

May 2022 – Dec 2023, Khartoum

System Administrator

- Provided end-user support for identity and access management, focusing on Active Directory (AD), Azure Active Directory (Azure AD), and related cloud-based services.
- Managed user accounts, group policies, and permissions within Active Directory and Azure AD to ensure secure and efficient access control.
- Diagnosed and resolved authentication, connectivity, and access-related issues across Microsoft 365, Azure services, and on-premises AD environments.
- Maintained a high level of system security by enforcing best practices for account provisioning, password policies, and role-based access control (RBAC).
- Developed and maintained IT documentation, including AD configurations, security policies, and troubleshooting procedures.
- Collaborated with IT teams to streamline AD integration with cloud services and enhance identity federation across hybrid environments.
- Generated and submitted monthly reports on user activity, security incidents, and directory service performance to IT management.
- Acted as the primary contact for IT support, ensuring timely resolution of user authentication and directory service issues.

End User Support Specialist Kuwaiti Sudanese Holding

December 2019 - April 2022, Khartoum

- Delivered prompt and effective first-line IT support, achieving a 98% user satisfaction rate for Zain end users, ensuring seamless access to services and applications.
- Trained newly hired employees over three months resulting in increasing efficiency.
- Active Directory by reviewing the devices registered in the system that do not exist as currently used devices, which facilitated the inventory of the devices that exist with the employees.
- Led the implementation of the new registration system by updating browsers,

authorizing user permissions, and providing hands-on training to ensure a seamless transition.

- Attained an 'A' grade in the bi-annual team-level evaluation.
- Achieved high performance in identifying, isolating, and resolving operational problems related to hardware, software, and user accounts.

IT HELP DESK SPECIALIST Sudatel Group of Telecommunications January 2016 - November 2019, Khartoum

- Achieved high performance in identifying, isolating, and resolving operational problems related to hardware, software, and user accounts (Active Directory Service).
- Assured that new equipment meets specifications called for by the business needs and that proper hardware and software configuration for new equipment is received.
- Successfully documented and prioritized help desk tickets, emails, and calls and responded promptly as per SLAs.
- Installing and configuring different peripherals such as Hard disks, Modems, and Printers.
- Over a month re-design the workshop format, in addition to sorting, categorizing, and arranging equipment according to seniority, use, and disposal of surplus.
- Revamped the Asset Management System, resulting in a 30% reduction in inventory errors, efficient device classification, and a 20% increase in user accessibility.

EDUCATION

Computer and Network Engineering

Minor in Computer • S U D A N UNIVERSITY OF SCIENCE AND TECHNOLOGY • K h a r t o u m • 2015

CERTIFICATIONS

- Microsoft 365 Fundamentals (MS 900).
- Microsoft Azure Administrator (AZ 104).

COURSEWORK

- Information Technology Infrastructure Library (ITIL).
 - Microsoft Azure Administrator.
 - Cisco Certified Network Associate (CCNA) Routing and Switching.
 - VMware Certified Professional 6 (VCP 2016).
 - Microsoft Certified Solutions Associate (MCSA).
-

Languages

- Arabic (Native).
- English (Advanced).
